Approved For Release 2005/12/16: CIA-RDP80-00810A003300150007-2 CLASSIFICATION DECRET Alexander B LIVIRAL INTELLIGENCE AGENCY REPORT NO. REPORT 110. CD NO. CO NO. COUNTRY East Germany DATE DISTR 15 January 1954 NO. OF PAGES Sant Schway 15 Jamesey 1954 Development of an Impulse Magnetron at the 1 CUBUICT He Mashwest of an imposite Housetton to the 13 OF PIGES NO. OF ENCLS. 25X1A CHEST PROPERTY. SUPPLEMENT TO 25X1C REBURE DELAT 13 RIPORT NO 25X1X

- 1. The Werk fuer Fernmeldewesen HF, Berlin-Oberschoeneweide, has completed the
 1. dewelopmentuef faramoulse measuring one. | Andaterior Jungituding measure translated of the
 massetten has motoret been established.
- 2. The following are the specifications of the magnetron:

Wave range: 3 centimeters

Maximum impulse power: 3 kilowatta

Maximum impulse duration: 1 macro second

Maximum key frequency: 1.000 Hz

Operating voltage: 8 to 9 kiloVolts

25X1A
